## **FEEDBACK PROCESS**

### **A. Feedback Collection:**

To get an overall idea on curriculum and other relevant aspects, the University has established feedback system through the close ended structured questionnaire via Google Form /SAP Portal. Feedback are collected from Stake holders which include Students, Faculty members, Alumni, Employers and Parents. Feedback is collected from the Students twice in a year through SAP on course content and course outcome, Course teacher and institutional facilities. Feedbacks are collected from the faculty members on design and outcome of the course they are teaching. Feedback from Recruiters, Alumni and Parents are taken once in year on curriculum development and overall improvement of Teaching Learning process. The Feedback is collected through a questionnaire in a scale of 5. The quantitative analysis is done on the basis of the score while the qualitative analysis is done on major opinions and suggestions given by different Stakeholders. The feedback on curriculum includes the course content and its depth, coverage, applicability, learning value, clarity and relevance.

### **B. Feedback Analysis:**

The data collected by the IQAC was sorted and consolidated for drafting the analysis report. The data entered in the selected format was then converted into chart form and decoded for the proper comprehension of the matter. The analysis is done year wise as well as parameter wise. The aspects pointed out by all the stakeholders are considered with special care and attention. The teachers discussed and evaluated the suggestions received from different spheres regarding the curriculum. The suggestions were consolidated to communicate to the teachers who are members of various Boards of Studies and Syllabus Revision Committees, and those who participated in the Syllabus Revision Workshops conducted by the University. Proper suggestions were formulated to be communicated to ensure the proper redressal of the grievances.
