1. Feedback Process

1.1 Feedback Collection

To get an overall idea on curriculum and other relevant aspects, the university has established feedback system through the close ended structured questionnaire via Google forms. Feedback is collected from stake holders which include students, alumni, employers and parents. Feedback is collected from the students on curriculum, teaching and learning twice in a year, it focuses on the course objectives, general observations, skill development, innovations and methodology, commitment and command & help and motivation. Students feedback on institutional facilities is collected once in a year which targets the overall facilities and ambience of the University. Feedback from recruiters, alumni and parents are taken once in year on curriculum development and overall improvement of teaching learning process. The feedback is collected through a questionnaire in a scale of 5. The feedback analysis committee of the University designs and collects feedback from its stakeholders to monitor and evaluate its performance quality on curriculum and curriculum related issues.

Feedback Analysis:

The data collected by the IQAC was sorted and consolidated for drafting the analysis report. The data entered in the selected format was then converted into chart form and decoded for the proper comprehension of the matter. The analysis is done year wise as well as parameter wise. The aspects pointed out by all the stakeholders are considered with special care and attention. The Feedback analysis committee discussed and evaluated the suggestions received from different spheres regarding the curriculum. The suggestions were consolidated to communicate to the respective University authorities for necessary action. Proper suggestions were formulated to be communicated to ensure the proper redressal of the grievances. The quantitative analysis is done on the basis of the score while the qualitative analysis is done on major opinions and suggestions given by different stakeholders.

2. Students Feedback

2.1 Feedback analysis of students' Responses

Frequency per Year-2

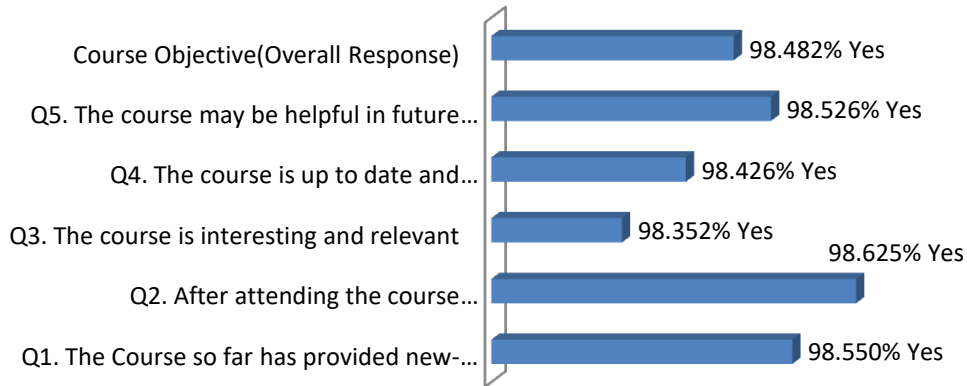

The students were asked to provide feedbacks in terms of rating against different criteria associated with course content and outcomes, teaching learning process as well as institutional facilities. The different criteria points associated in this regard are mentioned in the below table and analysed for further action.

Table 1: Questions and Average Performance based on students' Response

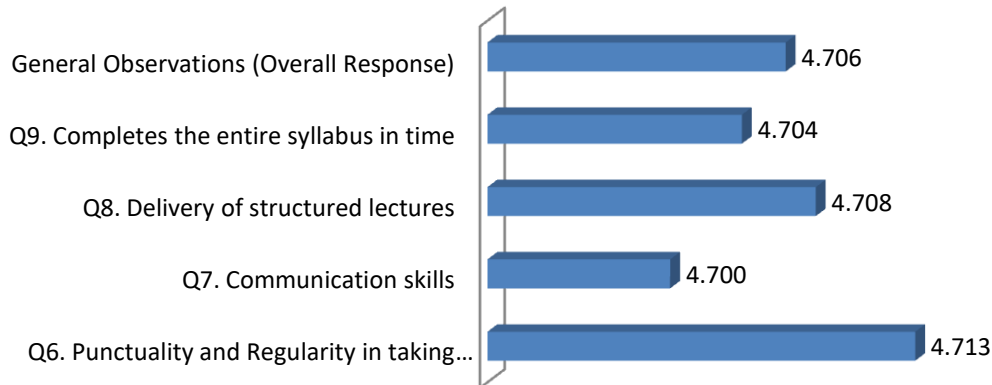

SL. No.	Questions	Average Score
Feedback on Course Objective (Yes/No)		
1	The Course so far has provided new-Knowledge	98.6(Yes)
2	After attending the course awareness or insight of the subject has improved	98.6% (Yes)
3	The course is interesting and relevant	98.4% (Yes)
4	The course is up to date and industry designed	98.4% (Yes)
5	The course may be helpful in future goal	98.5% (Yes)

7. Analysis of Feedback:

- The feedback for the academic session 2021-22 was collected from various stakeholders such as Students, Teachers, Alumni, Employers and Parents.
- During the analysis, it was observed that the stakeholders are overall satisfied on Curriculum, its content and outcome, teaching learning, and institutional facilities.
- Online teaching and training program.
- The students opined that the courses are useful in terms of knowledge, skill and broadening prospective.
- The stakeholders suggested for extended research facility and Inter-Disciplinary Research should be encouraged.
- The students also have the opinion to choose a faculty member of their choice from the pool of faculty members assigned for a particular subject.
- The alumni felt that the design of course curriculum is perfectly suitable for Morden industrial demand.

8. Outcome of analysis:

Inter-disciplinary Research:

KIIT encourages and promotes publication of quality Books, Research Articles, Conference Papers etc. by the members of faculty and students in national and international Journals of repute. The University promotes a climate of culture for research and innovations among the faculties and students. Focus has been augmented for interdisciplinary and innovative programs and research activities. Research teams from different schools such as School of Engineering, School of Biotechnology, School of Medical and Dental Sciences, School of Public Health, School of Management etc. undertake inter-disciplinary research addressing issues of national and international relevance, cutting edge technologies and sustainable development goals. Inter-disciplinary Research areas include renewable energy, water, rare earth, bio reserve, AI, cancer research, sustainability and equity and electric vehicle.

Choice of Course faculty: From a list of faculty members, students have the option to select the faculty member they want to teach a particular subject. This makes it possible for the students to approach the teaching and learning process with greater comfort.

Peer Learning: The Peer Learning concept has been successfully implemented in the University wherein senior students deliver educational concepts to the juniors. In addition to this several technical societies exist across the University where senior students play the lead role under the guidance of designated faculty member in charge to mentor their juniors in the participation.

Collaborative Governance: Present stakeholders representing Students, Alumni, Parents and Industry representatives are the members of various committees of the University which are associated with the governance process. The stakeholders were included in different forums like Mega HR Conclave, Alumni meet, Parents meet, Chai Pe Charchas meetings and in different Seminars and workshops.

Hybrid mode of Teaching: A number of digital classrooms have set up to enable hybrid mode of teaching which will nullify the constraint of physical presence.

9. Corrective measures to be taken in the next academic year:

The following actions are to be taken in response to feedbacks received from various stakeholders in the next academic year:

- Employers suggested to teach the students on emerging concepts like industry 4.0, 5G etc.
- Blended mode conferences/ seminar should be encouraged.
- Alumni suggested for conduction of more enterprenuership related activities.
- Students gave feedback on organising more number of hands on practice and skill development training programs.
- Few subject related to social science streams should be included in the course curriculum.
- Special initiative to increase student enrollment in the students exchange program for other universities is to be taken.
- Alumni also suggested to conduct more number of enviromental management events/ programs.
- Conferences and seminars on multi disciplinary research areas should be encouraged.
